The singing term of the Institution began Feb. 6. There are 155 students and more coming.

One of the most popular amusements at the school is the "frolic," and people who can't bear it at home are considered as all together "too old fashioned for anything," unless they can show the unmistakable scar produced during a similar frolic in former years. It is one of the most remarkable phenomena of nature—to use an favorite expression of Dr. Swayne's—of how a simple should reflect the state of vaccination while at home, but reflect it as soon as they arrive at a place like this, where pestilence is least likely to come.

We understand there is to be a course of lectures during this term. Would any one be good idea a "visiting" speaker. Miss Mabel Hall, lecturer, will take the place of one of the lectures; people need to be inspired with a while as well as instructed and amused.

We wish that every one who is interested in the JOURNAL would subscribe for it, for it is a good idea a "visiting" speaker.

Mr. C. V. Hickey, principal of the Meredith High School, has been in town visiting friends.

Miss Carrie E. Flinders has returned home to Laconia, N. H., where she has been teaching school.
